www.carpzoom.com

Welcome to the World of Predator-Z!

2016 arrives with a new season and new challenges.

Thanks to the efforts of our experts we trust in that we can offer the better and better solutions and answers year by year to you, being our partner and friend.

We do hope that you will agree with us and we can contribute to your success in business.

We, a group of committed experts in angling have worked a lot to develop our supply and service and to introduce new products in

order to meet these challenges. However, our policy has not changed: we are committed to meet the requirements of the wide range of fishermen, including hobby anglers willing to have some fun at the lake, to the devoted fanatics chasing the big fish. We always work closely with our esteemed partners (being also our friends) and grow our business together. We pride ourself on flexibility to help our partners to share our success. The satisfaction of our customers is based on several

topics we lay a big emphasis on:

- » Selection of high quality ingredients by our own experts with many years of experience.
- » Strict quality controls of the whole process from the raw materials to the ready products.
- » Continuous testing under various conditions by our experts and field testers from the first prototype until the product is available in the market.

- » The most up-to-date production technology to ensure the constant high quality.
- » Top quality packaging materials to ensure the freshness throughout the shelf life.
- » Flexible services offered by our well trained staff.

Should you have any questions please do not hesitate to contact us.

Variant-Cavalry

The arrival of the „blade” type lures has opened a new chapter in spin fishing. Unbelievable vibration features this lure.

It can be lead like a classic wobbler imitating a prey running for its life or like a soft lure being moved up and down on the bottom as a floundering fish moves. We achieved a great success in catching zander and Volga zander when we used the Cavalry on the bottom and catching pike and asp leading it in midwater.

Prado

The arrival of the „blade” type lures has opened a new chapter in spin fishing. Unbelievable vibration, unique design and many special details like laser eyes or hardened luminous painting feature this lure. It is easier than anything to attract the hunting catfish with this vertic lure thanks to the special vibration which makes it unbeatable. Zander and pike also love to snap at Prado. It is suitable to fish even in deep waters thanks to the relatively high weight.

Specially produced by GT-BIO for
CarpZoom / Predator-Z O-Plus

Lead Fish

This sinking lure is available in two weights and is designed for extra long casts and very fast retrieve. The special flap-tail ensures unique action and the special colour schemes make it irresistible.
